

Cincinnati Geotechnical Group - September 2021**Announcements****Chairman's Message**

Members,

I hope everyone has enjoyed their summer. Welcome to another year for the ASCE Cincinnati Geotechnical Group – we are looking forward to an exciting year.

I'd like to officially welcome our new Secretary for the 2021-2022 year – Rebecca Scherzinger with S&ME. Rebecca has hit the ground running and we are glad to have her onboard as an Officer.

After canceling last year, we are excited to host ORVSS LI in Cincinnati, Ohio on November 2, 2021. Registration is now open! You can register using the link on this newsletter. The Officers have been working this spring and summer behind the scenes to put the conference together.

I know we Geotechs can be set in our ways, but even we could use some update in technology every once in a while. We are working on getting website for the group up-and-running where we can share our group information and meeting details, among other things. The website will be a work-in-progress for a while, but look for announcements in the future. Thanks to David Mueller and Goettle for leading that effort.

Unfortunately, we were unable to find a speaker for a September meeting. Therefore, we will plan for a meeting in October. Please contact myself or one of the officers if you have or are aware of a presentation that could be given.

*-Russ Gatermann, P.E.
Chairman – Cincy Geotech Group*
