

Cincinnati Geotechnical Group - March 2023**Announcements****Chairman's Message**

Members,

This month we have Clayton Plute and Jon Huff with Goettle as our monthly presenter. The topic of their presentation is 'Design and Construction of MSD's Mill Creek Diversion Structure'. Due to its complexity of designing and installing the 65'-deep structure, this project was Pile Driving Contractors Association (PDCA) project of the year in 2021.

We are still looking for someone to present at our April meeting. Please reach out to any of the officers if you'd be willing to present.

*-David Mueller, P.E.
Chairman – Cincy Geotech Group*

Upcoming Event**Design and Construction of MSD's
Mill Creek Diversion Structure****by****Clayton Plute and Jon Huff, P.E.**

Mr. Plute is a University of Cincinnati Alumni and currently serves as Project Manager at Richard Goettle, Inc.

Mr. Huff is a University of Kentucky Alumni and currently serves as Vice-President at Richard Goettle, Inc.

Project Scope:

Design-build temporary sheet pile earth retention system for a new diversion concrete structure and interconnecting piping to support future work of a new pump station at Metropolitan Sewer District of Greater Cincinnati.

**Tuesday, March 14th at 5:30 PM**
Mantei Center, Room 405 (Formerly ERC)**A Glance at our Calendar**
