

Cincinnati Geotechnical Group - October 2023**Announcements****Chair's Message**

Members,

We had a great turnout last month for our first meeting back, Sebastian Lobo-Guerrero gave a great presentation about Drilled Shafts in Bedrock. Thank you to everyone who attended and participated in the discussions. PDH certificates for 1.5 hours have been sent out.

Our October presenter is Jesús E. Gómez with GEI Consultants who is the 2023-2024 DFI Traveling Lecturer. His presentation will be on the Do's and Don'ts in Lateral Stabilization of Soils Using Deep Foundation Elements. As a reminder, we are meeting in Baldwin Hall 537 (basement level computer lab), which is different from our typical space.

Reminder, early registration for ORVSS LIII ends October 11th.

Rebecca E. Scherzinger, P.E.
Chair – Cincy Geotechnical Group
